MARKETS BY WIRE.

A Sharp Break in the Grain Pit—Prices Tremble All Along the Line—Light Money and Good Weather.

CHICAGO—Large business was transacted in wheat to-day, but it was mostly during the early part of the session, the market the latter part of the day being more quiet.

Opening sales were anywhere from 2 to 2 1/2 to 3 1/2 bushels, including durum, and declined to 2 1/2 to 3 1/2 bushels.

The cause of the depression was in itself the demand for wheat, and a lack of demand. The short interest had pretty well covered at the last advance, and there was no disposition to buy for investment with the un-expected new wheat in regard to money matters.

Coras were active and weak, much lower prices being noted on all futures. The 100 lb. was due to better weather conditions, mild temperature being reported in the corn belt.

The improvement of Scheney Park is progressing as fast as money and muscle can be had.

The improvement of Scheney Park is progressing as fast as money and muscle can be had. The park is a big thing, and there is no doubt it will be appreciated by the people.

The County Commissioners are going slow in the Court House building, and are not very anxious to get the building started.

Business men and clerks. It is now said the DuPont Tractor Company will close the DuPont at Wilkinsburg by way of the tunnel, through which Goos creek flows its way.

Bad roads are holding up the building trades to a point far below expectations. There is no other reasonable explanation of the falling off in permits during the past week or two.

Major A. J. Pentecost has purchased 35 acres of land known as the Montgomery farm, about a mile and a half east of the town of Westmoreland.
